The very latest and smartest Blouses for Spring

TOMORROW we shall have our first real showing of Spring Blouses. The new styles have been coming in for weeks, but we now have an exceptionally good variety of the very latest modes. You can have no idea of the unusualness and charm of these blouses without seeing them. Georgettes prevail, of course, and there are clever models in tricolette.

The favored colors are borrowed from flowers, fruits, the gay plumage of birds—and the sands of the beach.

Marigold is one of the loveliest flower-colors used; cherry is a favorite; the happy blue-bird and the gorgeous peacock have lent most lovely blue tints. Then there are coral, and salmon shades. And now, as always, white, flesh, navy, and brown hold their place in fashion; these being often enlivened with trimmings of bright color.

The blouses of flesh Georgette with filet lace are charming.

The tricolette basque is very new and extremely smart.

Many blouses have Egyptian embroideries; others are beaded. Not all are elaborate, however. Many fascinate by their

piquant simplicity.

Both collarless and high-neck styles are shown, and there are three fashionable sleeve lengths—elbow, three-quarter and full length.

Prices range through a wide scale—from \$7.50 to \$37.50.

INTEREST IS KEEN

Old Time Election "Pep" Will Return This Year.

City Clerk Covell Sees Record-Breaking Registration.

WOMEN "UP ON THEIR TOES"

Scores of Them Call Clerk's Office Daily.

One Says She Must Vote to Preserve Domestic Peace.

Prospects are bright that the registration in Topeka this year will break all previous records, according to Miss Etta M. Covell, city clerk.

The interest now evinced in the coming primaries by both voters and candidates would indicate that registration will certainly equal, if not surpass, the state and county election of 1914, when 25,028 persons were registered in the city. This is more than half the population of the town, if the census figures are to be relied upon.

Registration Law Strict.

For the presidential election of 1916 there were 24,400 persons registered. These two years marked the crest of the registration figures in the city's history.

Topekan will have from March 1 to July 23 in which to register for the primaries. It will be necessary for every one who desires to vote to go in person to the city hall for registration, according to the terms of the new law. Not since 1905 have qualified voters who have not failed to vote at each general election been required to do this.

She Married a "Good G. O. P." "I never voted in my life," said a woman at the city hall Thursday, "but I am going to this year. I come from the south where they don't think it's right for a woman to vote, but I married a good Republican and will have to vote if I expect to live with him," she added, laughing.

It is evident the women of Topeka are going to take a large hand in politics this fall, if one may judge by their interest at present. Scores of telephone calls come to the city clerk's office each day from persons inquiring about technical details of registration and practically 95 per cent of them are from women.

Just prior to and during the war, political interest here appeared to lag. But the choice of a president as well as new county officers next November, will, officials predict, arouse the old time enthusiasm in the older voters and attract the interest of those who have recently acquired the right of suffrage.

UNION JURORS ARE BARRED.
Judge Would Not Let Them Try Case of Own Attorney.

Pittsburg, Kan., Feb. 27.—Judge A. Curran in district court today held that members of the United Miners are not eligible to sit as jurors in damage suits against coal companies where Phil H. Callery, general counsel of the district organization, is attorney for the plaintiff. Callery dismissed the case in which the issue was raised. B. S. Galtskill, attorney for the defendant company, argued that since the unionists employ Callery and pay his salary that they are disqualified as jurors in such cases.

Judge Curran emphasized that this ruling was not to be considered a binding precedent as he wanted to investigate the question further. As attorney for the union Callery receives a yearly salary for representing the miners in all damage and compensation cases.

IS YOUR GUARD DOWN?

Every man is a fighter, though he may not be a pugilist. His daily task is his fight—and he needs to be fit and ready for it.

Constipation to the business fighter is the "out-of-condition" of the pugilist. Constipation not only makes the business fighter dull and slow, and unfit for effort, but it is the "lowered guard" that leaves the opening for the jarring blows of serious diseases.

90% of all diseases have their origin in the intestinal canal—in constipation. Constipation not only causes the generation of poisons, which are carried through the system by the blood and attack it from within, but also by thus

lowering the general stamina makes the weakened system an easier prey to harmful germs from without.

By an entirely new principle Nujol keeps the poisonous food waste moving out of the body. Every other form of treatment either irritates or forces the system. Nujol works on the waste matter instead of on the system.

Nujol prevents constipation by keeping the food waste soft, thus helping Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world.

It is absolutely harmless and pleasant to take—try it.

Nujol is sold by all druggists in sealed bottles only, bearing the Nujol trade-mark. Write Nujol Laboratories, Standard Oil Co. (New Jersey), 50 Broadway, New York, for booklet "Thirty Feet of Danger."
